

For more than 50 years, our company helps its customers in the creation of their own products or brands.

Last French manufacturer of Alum stones, we offer a catalogue of standards references, and we're also able to answer every special requests (shape, weight...) in order to offer a product ready to sale.

As we take care to respect the European rules, we propose to organize all products registering operations.

It's for you the opportunity to focus on products' promotion.

As we have a very strong market knows we also can help you in creation and production of your own labels or commercial documents.

We also have in our catalogue a large choice of formulated products (deodorants, body care...) with "ready to sale" formulas.

Don't hesitate to contact us for every special request.

*Osma Private Label: Cosmetics ready to sale*
